## Explore the RUSSMAN Scrubber Range

All Russman scrubbers are HACCP rated, suitable for the food industry. Our tank in tank design provides both ease of access to clean recovery tank whilst providing stability and a compact design. The Russman range of scrubbers deliver a low noise level of 66dBa at the operators ear, suitable for noise sensitive environments such as hospitals and public spaces. Another great feature is our stainless steel squeegee assembly ensuring longevity when your application requires harsh chemicals or caustics with excellent pick up. Our products are backed with a 12 months parts and labour warranty, this coupled with our extensive parts stock and service knowledge will keep your machine cleaning.

## Quick Selection Guide

Choosing the right scrubber for your requirements doesn't have to be a complicated task. Simply use the Russman Quick selection guide below and find further information in this brochure.
